Harmon Releases Audit of Former Garrard County Sheriff's Tax Settlement

FRANKFORT, Ky. – State Auditor Mike Harmon today released the audit of the sheriff's settlement – 2021 taxes for former Garrard County Sheriff Tim Davis. State law requires the auditor to annually audit the accounts of each county sheriff. In compliance with this law, the auditor issues two sheriff's reports each year: one reporting on the audit of the sheriff's tax account, and the other reporting on the audit of the fee account used to operate the office.

Auditing standards require the auditor's letter to communicate whether the former sheriff's settlement presents fairly the taxes charged, credited and paid in accordance with accounting principles generally accepted in the United States of America. The former sheriff's settlement is prepared on the regulatory basis, which is described in the auditor's opinion letter. Regulatory basis reporting for the former sheriff's settlement is an acceptable reporting methodology, and this reporting methodology is followed for all 120 sheriff settlements in Kentucky.

The former sheriff's financial statement fairly presents the taxes charged, credited and paid for the period April 16, 2021 through August 31, 2022 in conformity with the regulatory basis of accounting.

As part of the audit process, the auditor must comment on noncompliance with laws, regulations, contracts, and grants. The auditor must also comment on material weaknesses involving the internal control over financial operations and reporting.

The audit contains the following finding:

The Garrard County Sheriff's Office did not have adequate segregation of duties: This is a repeat finding and was included in the prior year audit report as Finding 2020-001. The sheriff's office lacked adequate segregation of duties over receipts, disbursements, monthly reconciliations. The sheriff's bookkeeper collected money, prepared daily checkout sheets and deposits, took

deposits to the bank, prepared monthly tax reports, and checks to the districts, and performed monthly reconciliations.

According to the sheriff's office, there is a small staff size that limits the ability to adequately segregate the duties surrounding receipts, disbursements, and monthly reconciliations. Inadequate segregation of duties allows one person to have a significant role in processing and recording receipts and disbursements, which increases the risk of undetected misappropriation of assets and inaccurate financial reporting. The segregation of duties over various accounting functions such as preparing deposits, recording receipts and disbursements, and preparing bank reconciliation, or the implementation of compensating controls, is essential for providing protection from asset misappropriation and inaccurate financial reporting. Additionally, proper segregation of duties protects employees in the normal course of performing their daily responsibilities.

We recommend the sheriff's office separate the duties involved in receiving cash, preparing deposits, writing checks, posting to ledgers, preparing monthly bank reconciliations, and comparing financial reports to ledgers. However, if an adequate segregation of duties is not feasible due to a limited budget, compensating controls could be designed, implemented, and documented by the individual performing the procedure.

Former Sheriff's Response: The official did not provide a response.

The sheriff's responsibilities include collecting property taxes, providing law enforcement and performing services for the county fiscal court and courts of justice. The sheriff's office is funded through statutory commissions and fees collected in conjunction with these duties.

The audit report can be found on the [auditor's website](#).
