Harmon Releases Audit of Former Johnson County Sheriff's Tax Settlement

FRANKFORT, Ky. – State Auditor Mike Harmon today released the audit of the sheriff's settlement – 2021 taxes for former Johnson County Sheriff Doug Saylor. State law requires the auditor to annually audit the accounts of each county sheriff. In compliance with this law, the auditor issues two sheriff's reports each year: one reporting on the audit of the sheriff's tax account, and the other reporting on the audit of the fee account used to operate the office.

Auditing standards require the auditor's letter to communicate whether the former sheriff's settlement presents fairly the taxes charged, credited and paid in accordance with accounting principles generally accepted in the United States of America. The former sheriff's settlement is prepared on the regulatory basis, which is described in the auditor's opinion letter. Regulatory basis reporting for the former sheriff's settlement is an acceptable reporting methodology, and this reporting methodology is followed for all 120 sheriff settlements in Kentucky.

The former sheriff's financial statement fairly presents the taxes charged, credited and paid for the period May 18, 2021 through August 31, 2022 in conformity with the regulatory basis of accounting.

As part of the audit process, the auditor must comment on noncompliance with laws, regulations, contracts, and grants. The auditor must also comment on material weaknesses involving the internal control over financial operations and reporting.

The audit contains the following finding:

The former sheriff's office did not have adequate segregation of duties: This is a repeat finding and was included in the prior year audit report as Finding 2020-001. The former sheriff's office did not have adequate segregation of duties over receipts, disbursements, and bank reconciliations. The bookkeeper may collect tax payments, prepare the daily checkout sheet, deposits, and monthly tax reports. Upon completion of the monthly tax reports, the bookkeeper prepared, and signed

checks and performed bank reconciliations. These incompatible duties create a lack of segregation of duties over receipts, disbursements, and the reconciliation process.

The former sheriff indicated that this was caused by a limited number of employees that were available to segregate these job duties. By not segregating these duties, there is a risk that undetected errors or fraud could occur. The segregation of duties over various accounting functions such as opening mail, preparing deposits, recording receipts and disbursements, and preparing monthly reports, or the implementation of compensating controls is essential for providing protection from asset misappropriation and/or inaccurate financial reporting. Additionally, proper segregation of duties protects employees in the normal course of performing their daily responsibilities.

We recommend that if these duties cannot be segregated, the sheriff's office should implement and document compensating controls to help offset this weakness.

Former Sheriff's Response: No response – previous sheriff.

The sheriff's responsibilities include collecting property taxes, providing law enforcement and performing services for the county fiscal court and courts of justice. The sheriff's office is funded through statutory commissions and fees collected in conjunction with these duties.

The audit report can be found on the [auditor's website](#).
