Harmon Releases Audit of Former McCreary County Sheriff's Tax Settlement

FRANKFORT, Ky. – State Auditor Mike Harmon today released the audit of the sheriff's settlement – 2022 taxes for former McCreary County Sheriff Randy Waters. State law requires the auditor to annually audit the accounts of each county sheriff. In compliance with this law, the auditor issues two sheriff's reports each year: one reporting on the audit of the sheriff's tax account, and the other reporting on the audit of the fee account used to operate the office.

Auditing standards require the auditor's letter to communicate whether the former sheriff's settlement presents fairly the taxes charged, credited and paid in accordance with accounting principles generally accepted in the United States of America. The former sheriff's settlement is prepared on the regulatory basis, which is described in the auditor's opinion letter. Regulatory basis reporting for the former sheriff's settlement is an acceptable reporting methodology, and this reporting methodology is followed for all 120 sheriff settlements in Kentucky.

The former sheriff's financial statement fairly presents the taxes charged, credited and paid for the period September 1, 2022 through December 31, 2022 in conformity with the regulatory basis of accounting.

As part of the audit process, the auditor must comment on noncompliance with laws, regulations, contracts, and grants. The auditor must also comment on material weaknesses involving the internal control over financial operations and reporting.

The audit contains the following finding:

The former McCreary County Sheriff's Office did not have adequate segregation of duties: This is a repeat finding and was included in the prior year audit report as Finding 2021-001. A lack of adequate segregation of duties existed over all accounting functions. The former sheriff's

bookkeeper opened incoming mail, collected tax payments, prepared deposits, prepared daily tax collection journals, prepared monthly tax reports, prepared tax disbursements and signed those disbursements.

According to the former sheriff, a limited budget placed restriction on the number of employees that can be hired. A lack of segregation or strong compensating controls could have resulted in undetected misappropriation of assets and inaccurate financial reporting to external agencies such as the Department of Revenue and other taxing districts.

A segregation of duties over various accounting functions, such as collection of taxes, preparation of monthly reports and preparation of tax disbursements to the districts or the implementation of compensating controls because the number of staff is limited, is essential for providing protection from asset misappropriation and inaccurate financial reporting. Additionally, proper segregation of duties protects employees in the normal course of performing their daily responsibilities.

We recommend the sheriff's office separate the duties involved in receiving cash, preparing deposits, writing checks, posting to ledgers, preparing monthly bank reconciliations, and comparing financial reports to the ledgers. However, if an adequate segregation of duties is not feasible, compensating controls should be implemented and documented by the individual performing the procedure.

Former Sheriff's Response: The former official did not provide a response.

The sheriff's responsibilities include collecting property taxes, providing law enforcement and performing services for the county fiscal court and courts of justice. The sheriff's office is funded through statutory commissions and fees collected in conjunction with these duties.

The audit report can be found on the [auditor's website](#).
